JOBS 2013 Full Movie

<https://www.youtube.com/watch?v=-UbaMlcW6u0>

The inspiring movie was about the life and struggles of Steve Jobs who is the founder of Apple Inc. which is now a well-known electronics company when it comes in creating a remarkable computer and cellular phones.

In 2 hour duration of movie it depicts what, and why Steve Jobs started his passion in making personal computers. His motivation, foresight, and dedication to developing game-changing products were essential components in realizing his goals and influencing the tech sector.

Steve Jobs shows a dedication to his passion without setting boundaries. It is a representation of real life struggles wherein in you'll encounter people who will not listen or have no interest in what you want to show them. But for Steve Jobs it is not a reason for him to stop believing or not pursue his dream instead he take this to become more persistent that maybe now they will not recognize his product but soon a lot of people will enjoy the product he will create.
